

Minder Research, Inc. of Stuart, Florida introduces the NightMinder® **NM-Motion-002** Multi-Function Safety and Task Light. The induction charged Motion Light auto-illuminates during power failure to light the way! The light has two super-bright LED flashlights (top and side) and is always charged and ready when needed. The motion activated night light detects movement and illuminates, then automatically shuts off 15 seconds after movement ceases.

The display includes six NightMinder® **NM-Motion-002** Safety and Task Lights.
