

Minder Research, Inc. of Stuart, Florida offers the **TireMinder® TMG400C-6 Tire Pressure Monitoring System** (TPMS). Designed for RVs, the TMG400C-6 continuously monitors tire pressure and temperature, offering both visual AND audible warnings if a tire's pressure drops or if temperature exceeds 167°F (**blow-out warnings**) on up to 22 wheels (0-145 psi).

Six lightweight transmitters screw directly on to valve stems and have *replaceable* batteries. The kit includes a digital monitor, 12 batteries, a multi-angle bracket, a 12/24 volt charger and a signal booster which reduces electronic interference.
